

# LC500 High Performance Liquid Chromatograph

## LC500 HPLC | Chromatography Systems

High performance liquid chromatography system for routine analytical separation, quality control, and laboratory method work.

### Key Features

- HPLC platform for routine analytical chromatography
- Supports common laboratory quality control and research workflows
- Available with UV detector and modular LC components by configuration
- English PDF brochure available for technical selection

### Typical Applications

- Pharmaceutical quality control
- Food and agricultural testing
- Environmental analysis
- Research laboratory separation

### Selection Reference

<b>Instrument Type</b>	High performance liquid chromatograph
<b>Application Mode</b>	Analytical HPLC
<b>Typical Modules</b>	Solvent delivery, injector, column oven, detector, and workstation by configuration
<b>Documentation</b>	English PDF brochure available
<b>Voltage</b>	Confirm voltage and plug standard before quotation
<b>Document Status</b>	English PDF version for international product selection

Final configuration, accessories, voltage, plug standard, documentation scope, and delivery details should be confirmed before quotation.
