

TZAA 2000 Series Atomic Absorption Spectrophotometer

TZAA 2000 Series | Spectroscopy

Atomic absorption spectrophotometer for elemental analysis in environmental, food, material, and research laboratories.

Key Features

- AAS platform for elemental concentration analysis
- Product image set and English PDF brochure available
- Suitable for routine metal element testing
- Can be configured according to flame, graphite furnace, and accessory requirements

Typical Applications

- Heavy metal analysis
- Environmental testing
- Food and agricultural analysis
- Material and research laboratories

Selection Reference

Instrument Type	Atomic absorption spectrophotometer
Model Series	TZAA 2000
Measurement	Elemental analysis by atomic absorption
Documentation	English PDF brochure available
Voltage	Confirm voltage and plug standard before quotation
Document Status	English PDF version for international product selection

Final configuration, accessories, voltage, plug standard, documentation scope, and delivery details should be confirmed before quotation.
