

WOOK 8500 Dynamic Axial Preparative Chromatography System

WOOK 8500 | Preparative Columns Systems

Preparative chromatography platform built around dynamic axial compression column technology for purification and scale-up work.

Key Features

- Dynamic axial compression configuration for preparative separation
- System layout supports pump, detector, column, and fraction collection integration
- Suitable for method transfer from analytical chromatography to purification scale
- English PDF brochure available for international product selection

Typical Applications

- Natural product purification
- Pharmaceutical intermediate separation
- Preparative chromatography method development
- Pilot-scale laboratory purification

Selection Reference

System Type	Dynamic axial preparative chromatography system
Typical Workflow	Preparation, purification, separation, and scale-up
Configuration	Pump, detector, DAC column, control, and collection modules by project
Documentation	English PDF brochure available
Voltage	Confirm voltage and plug standard before quotation
Document Status	English PDF version for international product selection

Final configuration, accessories, voltage, plug standard, documentation scope, and delivery details should be confirmed before quotation.
